KEY RESOLVE AND FOAL EAGLE

1. Congratulations and thank you to the outstanding Soldiers, Sailors, Airmen, Marines, and civilians who have made this year's KEY RESOLVE exercise a great success!
2. This exercise, the first of two major joint and combined exercises, is held annually to ensure we can protect and defend the Republic of Korea from North Korean attacks while preserving the peace and regional stability across northeast Asia.
3. Your preparation, professionalism and superb performance have enabled us to safely accomplish all missions without any serious injuries or major equipment damage. I am extremely proud of all your accomplishments!
4. As we continue FOAL EAGLE exercises and begin redeployment operations from Key Resolve, I urge each of you to remain vigilant in your accident prevention and force protection efforts. I want Commanders and Leaders to stay personally engaged until all of your personnel have completed their missions and returned home safely.
5. I challenge leaders to pay close attention to their Service members during this critical time. Key Resolve and Foal Eagle are extremely important exercises and our ultimate success will continue to require everyone's hard work and safety focus.
6. Your continued achievements put our adversaries and their leadership on notice that we remain an agile, adaptive force capable of taking on any challenge. I thank you all for your hard work, dedication and commitment to excellence.
7. Kap Shi Kap Si Da - We Go Together!
